PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 12+ years of experience building and supporting enterprise solutions across apparel, ISP, biometric, healthcare, insurance, and government-facing platforms, plus apparel/manufacturing ERP systems. Strong in backend-heavy delivery—ASP.NET Core/Web API, clean business logic, secure integrations, and SQL Server performance tuning—paired with modern Angular frontends. Recent work includes Dubai Health charity systems (public Charity Portal + internal workflows), including secure authentication/SSO integrations (UAE Pass/IDAM) and API gateway usage (Ocelot). Currently upskilling in Azure and practical GenAI prompting for the certification exams. Actively seeking a full-time role in UAE/GCC.

CORE SKILLS

.NET: C#, ASP.NET Core, Web API, MVC, Entity Framework Core, LINQ, Dependency Injection, SOLID, Design Patterns

Frontend: Angular (8–16+), TypeScript, JavaScript, HTML, CSS, RxJS, component-driven UI

Databases: SQL Server (T-SQL, stored procedures, indexing, query tuning), reporting (RDLC/SSRS/Crystal Reports)

Architecture: Modular microservices-style design, REST/SOAP integrations, API Gateway (Ocelot), authentication/authorization, RBAC

DevOps/Cloud: Docker, Azure App Service, Azure DevOps (Repos/Boards/Pipelines), IIS, basic CI/CD concepts

Security/Identity: OAuth2/OIDC, JWT, SSO, UAE Pass & IDAM integrations

Tools: Git, Jira, Azure Boards, Postman/Swagger

CERTIFICATIONS, COURSES & TRAINING

Microsoft Azure Fundamentals (AZ-900) — In progress (Udemy + Microsoft Learn)

Google Prompting Essentials (Coursera) — Completed: Start Writing Prompts like a Pro; In progress: Design Prompts for Everyday Work Tasks; Speed Up Data Analysis and Presentation Building; Use AI as a Creative or Expert Partner

Workshop on Software Design and Architecture — Nerd Castle Limited, Dhaka, Bangladesh (Feb 2017 – Mar 2017)

In-house ERP System Training and Implementation — Hop Lun, China (Jan 2016)

Training on Object Oriented Programming (OOP) – ASP.NET (C#) — BASIS/BITM, Dhaka, Bangladesh (Nov 2009 – Feb 2010)

Industrial Training — Linux OS, 3-tier Java web app, Eclipse, IBM WebSphere, MySQL, Unit Testing — DPS Technologies India Pvt. Ltd., West Bengal, India (Jun 2007 – Jul 2007)

Red Hat Certified Technician (Linux) Training — Micro-Pro, West Bengal, India (Jun 2006 – Jul 2006)

PROFESSIONAL EXPERIENCE

Application Consultant | Healthcare Solutions (Deployed at Dubai Health) | Dubai, UAE | Apr 2023 – Nov 2025

Live: <https://services.dubaihealth.ae/financialaidtreatment>

- Took full ownership of Charity Application development, migrating the frontend from Angular 8 to Angular 10 and optimizing the .NET backend API for better performance.
- Designed, developed, and deployed a public-facing Charity Portal from scratch using .NET backend API, Ocelot API Gateway, and Angular 16, allowing patients to submit and track charity requests seamlessly.
- Redesigned the commitment letter management and donation document release process, enabling faster fund approvals and reducing patient treatment delays by 40%.
- Successfully integrated Non-DAHC hospitals into the system, delivering the new workflow in just 20 days.
- Exceeded user expectations by 56%, allowing immediate processing of 200+ Non-DAHC charity requests, accelerating treatment initiation.
- Built Windows Services for real-time donation utilization sync, shifting from monthly to 30-minute automated data synchronization with external regulatory body IACAD (Abu Dhabi), ensuring 100% accuracy in financial reporting while reducing manual efforts and errors.

Full-Stack Developer | Blue Logic Digital | Dubai, UAE | Sep 2022 – Mar 2023

- Architected and delivered insurance management platform handling 1000+ daily transactions for UAE health and motor insurance providers using .NET Core and Angular 13.
- Reduced system response time by 35% through optimized database queries and frontend component lazy loading.
- Implemented comprehensive logging and monitoring system, decreasing bug resolution time by 50%.
- Produced comprehensive technical documentation, enabling streamlined handovers and efficient maintenance.

Senior Software Engineer | M2SYS Technology | Dhaka, Bangladesh | Mar 2021 – Sep 2022

Live: <https://identity.cloudabis.com/>

- Increased customer satisfaction from 75% to 95% by redesigning and developing an in-house Biometric Analytics service, eliminating \$50K annual third-party dependency.
- Developed high-performance Biometric API processing 100K+ daily transactions, reducing response time by 25%.
- Built two custom CloudApper connectors enabling seamless biometric data integration, leading to successful onboarding of two major enterprise clients.
- Designed automated migration toolkit for legacy biometric systems, reducing client migration time from weeks to days.
- Created interactive API documentation portal, decreasing client integration time by 60% and technical support tickets by 40%.

Back-End Developer (Volunteer) | Redeem Tech | Copenhagen, Denmark | Nov 2020 – Feb 2021

- Developed and deployed a Windows-based application for client-side use, contributing to a 10% revenue increase for this early-stage startup.
- Collaborated closely with team members to resolve coding issues and align development efforts with business goals, ensuring efficient project progression.
- Conducted research and development on business requirements, producing high-level design documentation and architectural diagrams (HLD, DFD) to guide the development team.

Software Architect | Leadsoft Bangladesh Limited | Dhaka, Bangladesh | Mar 2020 – Sep 2020

- Collaborated closely with stakeholders to gather requirements and led the architecture, design, and development of a Pharmaceutical ERP solution, boosting departmental revenue by 30%.
- Directed and motivated the development team, ensuring alignment with design standards and successfully migrating legacy ERP solutions to new technologies, enhancing system reliability and client satisfaction.
- Conducted daily SCRUM meetings and weekly knowledge-sharing sessions to foster team cohesion and adherence to best practices, accelerating development cycles and improving code quality.
- Successfully delivered the Production Module of the ERP on a tight timeline, contributing significantly to revenue growth and client retention.

Senior Software Engineer | Raihana Consulting (US-based offshore) | Dhaka, Bangladesh | Oct 2015 – Feb 2020

- Led development teams in the successful launch of multiple client applications, ensuring high standards of quality and adherence to deadlines.
- Strengthened client relationships through effective communication on new requirements, bug fixes, and ongoing software improvements, contributing to client retention and satisfaction.
- Developed user-interactive systems that became a primary revenue driver, increasing company earnings by 50% annually.
- Documented high-level designs and business processes, reducing onboarding time by 35% through improved clarity and knowledge sharing.

Programmer | CSL Software Resources Ltd | Dhaka, Bangladesh | Jul 2014 – Oct 2015

- Developed and enhanced modules for ERP web solutions in Accounting and Apparel Manufacturing, including critical report generation, contributing to a 30% increase in company revenue.
- Designed and optimized database structures for new and existing applications, improving data accessibility and operational efficiency.
- Spearheaded new approaches in data visualization through RDLC reporting, increasing customer retention by 15–20%.
- Led knowledge-sharing sessions and mentoring activities with junior programmers, fostering team growth and accelerating project progression.

Programmer | CSL Software Resources Ltd | Dhaka, Bangladesh | Apr 2012 – Jul 2012

- Windows-based ERP software and report development for mainly apparel industries.

- A large volume of analysis reports modification and development which helped to enlarge the revenue percentage to more than 15%.
- Involved immediately in effective client communication, satisfying the requirements by developing or modifying the various modules, and on-time delivery results reduced the on-board training cost by 5%.
- Multi-task and change from one task to another without the loss of efficiency or composure where possessed up-to-date technical knowledge which helped to apply the best technical ideas to design the solutions for the end clients.

Junior Programmer | Raihana Consulting (US-based offshore) | Dhaka, Bangladesh | Jun 2010 – Mar 2012

- Participated in coding activities, maintaining the integrity of program logic and coding, developing and updating existing systems to increase task success rate by 25%, and eventually increased the annual profit to near about 15 to 20%.
- Worked with senior technology solutions team members to assist with the development of over 2+ software solutions on a wide variety of platforms including web and Desktop.
- Team collaboration for Microsoft Dynamics customization using AX. Additional skills used: CSS, HTML5, IIS.

EDUCATION

M.Sc. in Applied Mathematics — South Asian University (SAARC), New Delhi, India (2012 – 2014)

B.Tech in Computer Science & Engineering — West Bengal University of Technology (WBUT), Kolkata, India (2004 – 2008)
