Senior Full-Stack / Software Engineer (.NET + Angular)

Open to Relocation and Visa Sponsorship across EU/EEA

Professional Summary

Results-driven Senior Full-Stack Software Engineer with 12+ years of experience designing and delivering enterprise-grade applications using .NET Core, Angular (8–16), Azure, and SQL Server. Proven success in healthcare, fintech, and ERP sectors, building secure, high-performance platforms integrated with UAE Pass & IDAM. Skilled in microservices architecture, API design, and modern application development with a strong focus on scalability, performance, and code quality.

Career Highlights

- Delivered healthcare and ERP solutions improving performance by up to 40%.
- Integrated UAE Pass and IDAM for secure authentication across public-facing systems.
- Optimized APIs and Angular UI improving response by 40%.
- Collaborated with cross-border teams across UAE, Denmark, and the US for global product rollouts.
- Reduced operational workload by automating donation synchronization and reporting tasks.

Technical Summary

- Languages: C#, TypeScript, JavaScript, VB.NET (legacy support)
- Frameworks: .NET 6–9, ASP.NET Core, MVC, Entity Framework Core, LINQ, TDD
- Frontend: Angular (8–16), jQuery, React.js (working knowledge)
- Architecture & Patterns: Microservices, REST APIs, API Gateway (Ocelot), SOLID, Design Patterns
- Databases: SQL Server, PostgreSQL, MongoDB, Redis Cache
- Cloud & DevOps: Azure App Service, Azure DevOps, Docker, IIS
- Integrations & Security: External APIs, UAE Pass, IDAM, OAuth2/OIDC, JWT, SSO
- Reporting: Crystal Reports, RDLC, SSRS
- Project Management & Version Control: Jira, Git, GitHub, GitLab
- Migration: .NET Version & Database Migration
- Certifications: Microsoft Azure Fundamentals (AZ-900) – In Progress

Key Professional Experience

Application Consultant – Dubai Health (Apr 2023 – Present): Led development & modernization of the Charity Public Portal (Dubai Health Authority – DHA) with UAE Pass & IDAM integration for secure patient onboarding and revamped the Charity Internal ERP Application, fine-tuning backend APIs, Angular components, and SQL performance to reduce process time by 40%.

Tech Stack: .NET 5, Angular 13, SQL Server 2016, Docker, NGINX.

- Software Architect – LeadSoft Bangladesh (Mar 2020 – Sep 2020): Designed cloud-ready ERP for the pharmaceutical sector increasing operational efficiency by 30%; implemented microservices and Azure deployment. Also worked in banking solution.

Tech Stack: .NET Core, EF Core, Angular 9, Azure App Service.

Earlier Experience (2010 – 2020)

- Senior Software Engineer & Junior Programmer – Raihana Consulting (2010–2012, 2015–2020): Worked across multiple ERP and enterprise systems including apparel manufacturing, order management, ISP/Triple-play ERP (internet TV), CRM, HR, accounting & billing, ticket management, report manager (Dynamics AX to ASP.NET Crystal Reports), and inventory management; delivered Microsoft Dynamics AX customizations to meet client workflows.

- Programmer – CSL Software Resources Ltd (Apr 2012 – Jul 2012, Jul 2014 – Oct 2015): Developed ERP modules for accounting and apparel manufacturing using ASP.NET, RDLC, and SQL Server.

- Volunteer – Senior Software Engineer, Redeem Tech, Denmark (2020–2021): Developed Windows-based application contributing to 10% revenue growth. Tech: .NET Core, EF Core, Redis, Angular 9.

Education

- M.Sc. in Applied Mathematics – South Asian University (SAARC), New Delhi, India (2014)

- B.Tech in Computer Science & Engineering – WBUT, India (2008)

Soft Skills

- Cross-Cultural Collaboration
- Agile & CI/CD Mindset
- Analytical Thinking & Problem Solving
- Effective Communication & Leadership
