Location: Sharjah, UAE | Current Visa: Spouse Visa

Nationality: Bangladeshi | Requires work visa sponsorship for the UAE

Professional Summary

Senior Full-Stack Developer with 12+ years of experience delivering enterprise-grade web applications across healthcare, insurance, biometric identity, ERP, and government-facing platforms. Specialized in backend-heavy development — ASP.NET Core, Web API, clean architecture, and SQL Server performance tuning — combined with modern Angular frontends. Proven track record of building and deploying scalable systems, leading development teams, mentoring junior engineers, and integrating secure authentication flows (OAuth2/OIDC, JWT, SSO). Recent delivery includes a public Charity Portal for Dubai Health, featuring API Gateway (Ocelot), Azure App Service deployment, and real-time data synchronization with regulatory bodies. Currently upskilling in Microsoft Azure (AZ-900) and GenAI-assisted development. Immediately available. Open to relocation to Spain and the European market.

Core Technical Skills

Backend	C#, ASP.NET Core, Web API, MVC, Entity Framework Core, LINQ, Dependency Injection, SOLID, Design Patterns
Frontend	Angular (v8–16+), Typescript, JavaScript, HTML5, CSS3, RxJS, Component-driven UI
Cloud / DevOps	Azure App Service, Azure DevOps (Repos/Boards/Pipelines), Docker, IIS, CI/CD, Git
Databases	SQL Server (T-SQL, stored procedures, indexing, query optimization), RDLC / SSRS / Crystal Reports
Architecture	Microservices-style design, REST & SOAP integrations, API Gateway (Ocelot), RBAC, Authentication/Authorization
Security	OAuth2/OIDC, JWT, SSO, UAE Pass & IDAM integrations, secure API design
Tools	Git, Jira, Azure Boards, Postman, Swagger, Agile / Scrum

Professional Experience

Freelance Full-Stack Developer · **Self-employed (Contract / Remote)** · UAE / Remote · Dec 2025 – Present

- Delivering post-deployment support and enhancements for a charity management system within the Dubai Health ecosystem (.NET Core, Angular, SQL Server).
- Developing a custom event management platform for a Dhaka-based client: backend REST APIs (.NET Core), Angular frontend, and relational database design.
- Providing ad hoc technical consulting — performance fixes, bug resolution, and architecture advisory — across .NET and Angular applications.
- Engaging directly with stakeholders for requirements gathering, scope definition, and iterative delivery in a project-based model.

Application Consultant · **Healthcare Solutions (deployed at Dubai Health)** · Dubai, UAE · Apr 2023 – Nov 2025

Live system: services.dubaihealth.ae/financialaidtreatment

- Took full ownership of the Charity Application: migrated frontend from Angular 8 to Angular 16 and optimized the .NET backend API for throughput and reliability.
- Designed, developed, and deployed a public-facing Charity Portal from scratch — .NET Web API, Ocelot API Gateway, Angular 16 — enabling patients to submit and track charity requests online.
- Redesigned commitment letter and donation release workflows, reducing patient treatment delays by 40% and accelerating fund approvals.
- Delivered Non-DAHC hospital integration in 20 days, enabling immediate processing of 200+ charity requests and exceeding user expectations by 56%.
- Built Windows Services for automated donation-utilization sync with regulatory body IACAD (Abu Dhabi), shifting from monthly manual exports to 30-minute automated cycles — 100% accuracy in financial reporting.

Full-Stack Developer · **Blue Logic Digital** · Dubai, UAE · Sep 2022 – Mar 2023

- Architected and delivered an insurance management platform handling 1,000+ daily transactions for UAE health and motor insurance providers (.NET Core, Angular 13).
- Reduced system response time by 35% through query optimization and Angular lazy loading.
- Implemented comprehensive logging and monitoring, cutting bug resolution time by 50%.
- Produced detailed technical documentation enabling efficient handovers and ongoing maintenance.

Senior Software Engineer · **M2SYS Technology** · Dhaka, Bangladesh · *Mar 2021 – Sep 2022*

Live: identity.cloudabis.com

- Redesigned an in-house Biometric Analytics Service, raising customer satisfaction from 75% to 95% and eliminating a \$50K annual third-party dependency.
- Developed a high-performance Biometric REST API processing 100K+ daily transactions with a 25% improvement in response time.
- Built two custom CloudApper connectors for biometric data integration, onboarding two major enterprise clients.
- Designed an automated legacy-system migration toolkit, reducing client migration time from weeks to days.
- Created an interactive API documentation portal, decreasing client integration time by 60% and support tickets by 40%.

Back-End Developer · **Redeem Tech** · Copenhagen, Denmark (Volunteer/Remote) · *Nov 2020 – Feb 2021*

- Developed and deployed a Windows-based client application contributing to a 10% revenue increase for this early-stage Danish startup.
- Produced high-level design documentation (HLD, DFD) and architectural diagrams guiding the development roadmap.

Software Architect · **Leadsoft Bangladesh Limited** · Dhaka, Bangladesh · *Mar 2020 – Sep 2020*

- Led architecture, design, and delivery of a Pharmaceutical ERP solution, boosting departmental revenue by 30%.
- Directed team alignment with design standards; successfully migrated legacy ERP systems to modern technologies.
- Facilitated daily Scrum ceremonies and weekly knowledge-sharing sessions, improving code quality and accelerating delivery.

Senior Software Engineer · **Raihana Consulting (US-based, offshore)** · Dhaka, Bangladesh · *Oct 2015 – Feb 2020*

- Led development teams across multiple successful client application launches, ensuring quality and on-time delivery.
- Developed user-facing systems that became the primary revenue driver, increasing company earnings by 50% annually.
- Documented high-level designs and business processes, reducing new developer onboarding time by 35%.

Programmer · **CSL Software Resources Ltd** · Dhaka, Bangladesh · *Apr 2012 – Oct 2015*

- Developed and enhanced ERP modules for Accounting and Apparel Manufacturing; introduced RDLC-based data visualization, contributing to a 30% revenue increase.
- Mentored junior programmers; led knowledge-sharing sessions to raise team capability and accelerate project delivery.

Junior Programmer · **Raihana Consulting (US-based, offshore)** · Dhaka, Bangladesh · *Jun 2010 – Mar 2012*

- Contributed to 2+ software solutions across web and desktop platforms; collaborated on Microsoft Dynamics (AX) customization.

Education

M.Sc. in Applied Mathematics

South Asian University (SAARC), New Delhi, India

2012 – 2014

B.Tech in Computer Science & Engineering

West Bengal University of Technology (WBUT), Kolkata, India

2004 – 2008

Certifications & Training

Microsoft Azure Fundamentals (AZ-900) — In Progress

Google Prompting Essentials (4 modules)

Workshop: Software Design & Architecture

Training: OOP & ASP.NET (C#)

Industrial Training — Linux, Java EE, IBM WebSphere

Udemy + Microsoft Learn | 2025–2026

Coursera | Feb – Mar 2026

Nerd Castle Limited, Dhaka | Feb – Mar 2017

BASIS/BITM, Dhaka | Nov 2009 – Feb 2010

DPS Technologies India | Jun – Jul 2007
